A TASTE FOR IT

by **DataNews** 2022
CAREER FAIR FOR IT
& DIGITAL PROFESSIONALS

Concept

A taste for IT focusses on motivated starters, talented job seekers and ambitious 'High Potentials' in the IT-sector. Top talent is rare and coveted/wanted! How do you recruit the IT-talent that makes your company grow? Profile your company on our tasty event and heat up the wanted jobseekers.

We make sure that you meet some interesting talents during the event and we raise your chance on a **perfect Match!**

PROGRAMME

Concrete the event is split in 2 parts where we aim for a different target group.

• 15h30 – 18h 30

Job Village – Free Entrance

We open the jobvillage for everyone with an interest in an IT job. We are talking about last years students and active job seekers. Through an intense media campaign (online and offline) we make candidates warm to register and meet our partners.

• 18h30 – 22h30

Cullinary Night – Invitation Only

Starting from 18h30 we aim for the latent job seekers. Experienced IT profiles are invited to taste from our workshops with a known chef. Besides the workshops you can enjoy some tasty dishes from different top chefs like Sang Hoon Degeimbre, Bart De Pooter, Giovanni Bruno & more.

The dishes represent the Belgian Gastronomy, the Melting Pot of the Brussels cuisine, but always interpreted with local and seasonal products.
